Short Question.

1. What is Data and Information?
2. Define: Process and Knowledge.
3. Explain the terms: Input and Output
4. List out the various characteristics of valuable information.
5. What are the benefits of Information?
6. What is Data? List out types of data.
7. Define System and also give its example.
8. Define System in an Organization.
9. What is system boundary?
10. Define Knowledge.
11. Define wisdom.
12. List out various Business Information System
13. Differentiate between Data and information.
14. Differentiate between open and closed system.
15. Differentiate between Probabilistic & deterministic system.
16. List out activities of TPS.
17. List out objective of TPS.
18. List out characteristics of MIS.
19. List out types of system.
20. List out principal document associated with information flow.
21. What is Product flow and information flow?
22. Define ERP.
23. Define DSS.
24. List the components of DSS.
25. Explain characteristics of DSS.
26. Explain limitation of DSS.
27. Give the benefits of DSS.
28. Give examples of Open and close system.
29. What is ERP? List out its advantages.
30. Differentiate between Open and Close System.
31. List out types of reports generated through MIS.

Long Question.

1. Explain characteristics of valuable Information.
2. Explain input, process, output and feedback in detail
3. Explain classification of Information.
4. Explain information resources.
5. What is information? Explain benefits and need of Information.
6. Explain characteristics of a system.

7. Explain element of system.
8. Explain deterministic and Probabilistic system.
9. Explain open and closed system.
10. Explain types of information system.
11. Explain CBIS with its components.
12. Explain steps to convert manual system into computerized information system.
13. What is BIS? Explain Principal function system in business.
14. List out various Business Information System. Explain any three System.
15. Explain special purpose systems of Business Information Systems.
16. Explain Product flow.
17. Explain Information flow in detail.
18. Explain Product flow and Information Flow.
19. Explain principal document associated with information flow.
20. Define ERP? Explain its advantages and disadvantages in detail.
21. Define ERP. Explain MIS, BIS and DSS
22. Explain characteristics of DSS.
23. Explain components of DSS.
24. What is TPS? Explain Transaction processing activities.
25. Explain objectives of TPS.
26. Compare MIS and DSS.
27. Explain Development process of MIS.
28. Explain characteristics of MIS
29. Explain Purchase System and Accounting system.
30. Explain order processing system.
